#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION*****Double Patenting***

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1, 4, 7 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claim 13 of U.S. Patent No. 6,743,415. Although the conflicting claims are not identical, they are not patentably distinct from each other because the examined claims are anticipated by the reference claim. Claims 1, 4 and 7 are generic to all that is recited in claim 13 of U.S. Patent No. 6,743,415. That is, claim 13 of U.S. Patent No. 6,743,415 falls entirely within the scope of claims 1, 4 and 7. Specifically the composition for delivery of sumatriptan (of claim 1), or frovatriptan (of claim 4) or naratriptan (of claim 7) consisting of a condensation aerosol formed by volatilizing the said active agent, is the same as (or within the scope of) the anti-migraine drug as stated in claim 13 of U.S. Patent No. 6,743,415.

Claims 1-18 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims of U.S. Patent No. 6,740,309. Although the conflicting claims are not identical, they are not patentably distinct from each other because the examined claims are anticipated by the reference claim. Claims 1-18 are generic to all that is recited in claims of U.S. Patent No. 6,740,309. That is, claims of U.S. Patent No. 6,740,309 fall entirely within the scope of claims 1-18. Specifically the composition for delivery of sumatriptan (of claim 1), or frovatriptan (of claim 4) or naratriptan (of claim 7) consisting of a condensation aerosol formed by volatilizing the said active agent, and the method of producing said active agents, are the same as (or within the scope of) the migraine headache drugs including sumatriptan, frovatriptan and naratriptan as stated in claims of U.S. Patent No. 6,740,309.

Claims 1-18 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims of copending Application No. 10/155,705. Although the conflicting claims are not identical, they are not patentably distinct from each other because the examined claims are anticipated by the reference claim. Claims 1-18 are generic to all that is recited in claims of copending Application No. 10/155,705. That is, claims of claims of copending Application No. 10/155,705 fall entirely within the scope of claims 1-18. Specifically the composition for delivery of sumatriptan (of claim 1), or frovatriptan (of claim 4) or naratriptan (of claim 7) consisting of a condensation aerosol formed by volatilizing the said active agent, and the method of producing

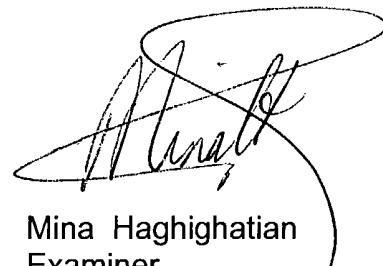

said active agents, are the same as (or within the scope of) the sumatriptan, frovatriptan or naratriptan condensation aerosols as stated in claims of copending Application No. 10/155,705.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.
